

Meet a Champion - Evie

This is Evie's sixth consecutive summer with Camp Boggy Creek, and it was a long road to get to camp. Shortly before her third birthday, Evie was diagnosed with cancer. Medical treatments included brain surgery, a bone marrow transplant and chemotherapy. She was left unable to speak for four months and unable to walk for a year. Another tumor was detected and she underwent a full radiation treatment just after turning six. We are so happy to have her here where she feels comfortable with her friends, rescues hurt butterflies, and has a sense of belonging.

"I felt that I was not as different as I feel in school."-Evie on how Camp has helped with her illness.

According to Evie's parents, "Camp has been wonderful for our family, but for Evie it has brought healing and joy like nothing else in her life. We love Boggy Creek and are so grateful to be a part!"
