FUN TIMES. GOOD FRIENDS. LIFELONG MEMORIES.
Above all, have fun.

Since 1996, Camp Boggy Creek has made it possible for children with serious illnesses to enjoy a camp experience in a safe, medically-sound environment. Located just a short drive from Orlando, Florida, the 232-acre camp serves children ages 7-16 who've been diagnosed with chronic or life-threatening conditions.

Camp Boggy Creek is a $23-million facility that features a state-of-the-art medical facility affectionately called “The Patch.” As a year-round retreat, Camp Boggy Creek is able to serve thousands of campers and their families through activity-packed weekly and weekend camp programs.

Our full-time physician and nurse are supplemented by volunteer doctors and nurses whenever campers are on property. These volunteers generally specialize in the illness or disease group being served during that particular family retreat weekend or summer session. This extensive medical support gives parents the confidence to know that their child will be safe and have access to any medical support needed.
